EDUCATION

Central Institute of Technology Kokrajhar   Assam, India
B.Tech in Computer Science and Engineering (CGPA: 8.5/10)   June 2020 - June 2024

TECHNICAL SKILLS

Languages:	C, C++, JavaScript
Technologies:	ReactJS, NodeJS, ExpressJS, MongoDB, MySql, HTML, CSS
Tools:	Git, GitHub, Linux, VS Code, Canva, Atom
Coursework:	Data Structure and Algorithms, Object Oriented Programming, Computer Networks, DBMS Operating System, IoT, Theory of computation, Computer Architecture, Software Engineering etc.
Soft skills:	verbal and non-verbal communication skills, Critical thinking, Analytical skills

EXPERIENCE

Software Development Engineer Intern   Oct 2023 - Dec 2023
RecruitNXT   *Remote*

- Developed a dynamic **CRM Software** Admin Panel using **React.js** for a seamless and intuitive **user interface**.
- Engineered a robust, **real-time** meeting scheduler using **react-calendar**, ensuring seamless communication.
- Collaborated on integrating **RESTful APIs**, ensuring seamless data flow between Admin Panel and **server**.

Technical Intern   Aug 2022 - Nov 2022
GeeksforGeeks   *Remote*

- Authored and published **16+** high-impact articles focusing on **DSA** and **Git**, reaching a total **115,000+ view**
- Attained a peak view of **48K+** and Recognized with the **Proficient tag** for excellent writing (Check Articles)

PROJECTS

Devfolio - React.js, Three.js, html, css [Code] [Live]

- Build a visually stunning portfolio for showcasing relevant information to reflect a good portfolio of a **developer**.
- Improved **UX** with **Framer Motion**, Ensured Responsive Design (**5+ Devices**), and Implemented **Gallery**.
- Optimized Performance with **Suspense**, Implemented Email Communication via Contact Form using **EmailJs**.

PlacementPortal - React.js, html, css [Code] [Live]

- Created a responsive **React application** for Placement Cells, optimizing efficiency in placement activities.
- Implemented dynamic navigation with React **Router**, ensuring seamless **UX** through different **15+ routes**.
- Designed **components** for an efficient **DOM**, optimized route display with **Switch**, and enhanced modularity.

CodingClub - Javascript, JQuery, html, css [Code] [Live]

- Developed an impressive fully **responsive** website for Coding Club's for smooth conduction of activities.
- Implemented carousel slider, smooth scrolling using **Jquery** and efficient **event** management system section.

ACHIEVEMENTS

- Secured Rank 1 among 5K+ participants in the Celebal Technology Coding Contest on HackerRank
- Solved about 400+ Problems on Data Structures and Algorithms combining Leetcode and GeeksforGeeks
- Got Xiaomi Scholarship for Undergraduate Degree Courses 2020-21 Among 499 winners from 20K+ of application
- Achieved Proficient Tag on GeeksforGeeks by writing 16+ high-impact Articles.
- Selected as one of the few recipients of the Next Generation Tech Booster Challenge Program of Udacity

LEADERSHIP

Served as a Secretary and Coding Tutor at Coding society of my college, Creating a coding environment by organizing contests, teaching and helping students as a mentor with mentoring over 500+ students.
